Catalog of Copyright Entries. Third Series 1977 Do it yourself medicine a repair manual fun thing get the mobile app at Bwell mobi grove i. Recently put together a mobile application for all the new people who are mobile digital. Is not a tree by Sari Grove Joseph Grove authored by Justin Wood series edited by each body part contains 2 elements a plus element a minus element these 2 elements must live in balance as opposites imbalance is ill health balance is good health learn how to balance your health learn where to find those elements from the periodic table of elements in the real world see how medical theories are applicable.
formed understand what the problem is figure out how to repair your own problem figure out that maybe your problem is not a problem but a solution open up your mind to some new choices some new decisions some new information be able to speak intelligently about your own health the cover is matte it all looks stunning as a paperback it is handy as a gift for yourself for days when you aren t in front of a computer like when you go to the doctor s clinic you can make notes inside the book too there is room this is encouraged self efficacy is an excellent prognosticator for health do it yourself medicine a repair manual does not mean you should ignore outside help it just means that maybe something like a quick oil change or a tire inflate or a battery charge might be done by you instead of a very expensive unavailable health care practitioner if you are at home not feeling well need to ask a question check our book but also know that the ask a doctor function online the justanswer people have specialists available to help with your questions there s a walk in clinic at the maple leaf gardens loblaws store inside the giant grocery space in the far corner upstairs a new woman doctor means women get to say stuff they were afraid to say to a man doctor this is an improvement for toronto they are open on a sunday there is a neurology factor in this book i have drawn the pictures to show how that works bigger versions of the pictures can be seen online as well the best part about the really simple neurology information is how the brain part connects to the body part connects to the 2 opposing elements inside the body part also the specific brain part function is shown not a huge list of things but the prime function so instead of a whole long list of possibilities you get something real to hang on to there is also a brilliant first stab at identifying which actual side of the brain controls or is fed by what element for example the frontal lobe left side is a lead plomb element side removal of left frontal lobe causes a lean toward the right frontal lobe the zinc element side this would result in bipolar or zinc excess symptoms phineas gage the famous true story is mentioned was used to get to this place i have added the lung lymph node connection to the parietal lobe as well how the left side of the parietal lobe is the aluminum plus element the right side hemisphere of the parietal lobe is the titanium element so if you have removed the left side hemisphere parietal you are short on aluminum long on titanium you will have right sided problems due to the cross switch nature of the sidedness of the brain so a left hemi parietal removal robs aluminum also robs numbers knowledge feel free to find us on social networks say hello sari grove p s you probably should read grove body part chart a medical arts innovation first before reading do it yourself medicine a repair manual this second book assumes you understand the basics of the theory progresses to more complex problems note for

The GMS Toolkit 1988 you get the how to see a lump or anything else under your skin instructions the
how to check for malignancy instructions the how to start an alternative anticancer protocol guide this
book is a kindle book on amazon the copy you are getting may get edited updated over time thanks for
visiting sari grove re how do i know what the colours are big question ok so right at the beginning i was
obsessed with seeing what this lump looked like i didn t believe anybody i wanted to see for myself i
actually was convinced it was over diagnosis it was just a fibroadenoma anyways i started taking pictures
then editing them to see if i could get a heat map or something early on i could i became better better at
seeing things fooling around with tints temperature in the iphoto program put it all aside came back to it
with new ideas finally got a really good look at it saw there were different colours started reading about
benign versus malignant chemistry realized the differential was phosphorus after reading someone s
thesis looked at microscope pictures online of what phosphorus should look like many looked at my own
pictures saw phosphorus now i knew what colour it was in iphoto what shapes it took that was my first
element as i tried foods alternative medicines i always went one at a time took before after pictures
noticed differences like if i ate eggs this was before i went raw vegetable diet helen hecker s book my raw
food diet secret cure more blue showed up i learned that blue in iphoto was cholesterol aluminum in my
chart iron in iphoto reflects it comes up as shiny white if i ate a protein like chicken there d be shiny white
the next day it was logical too iron is shiny i am simplifying the story a bit but it was really trial error logic
a lot of time an artist brain my husband is an artist too so the two of us are a bit intense he lets me go
down paths much further than a normal person would mostly it is about how long you are willing to spend
on something in my case my life was on the line so i was motivated months later maybe longer a lady wrote a giant post about me my method big confidence boost for me but many did not have a mac computer i got motivated to try harder to find a way for everybody to edit because of her support her blog is heal breast cancer naturally com i developed the fotoflexer method i was staying at my mum s house 7 weeks she got shingles very badly using her dell computer so i had to figure it out even for myself to do check ups though all the colours were different i knew where they were supposed to be already from using iphoto for so long so it was just translating turned out fotoflexer saw more started relying on it even more but discerning between the dark green spots the healthy light green tissue was hard fast forward to you back at my mum s house didn t want to come back downtown to edit in iphoto the malignant vs benign question was getting to be a problem i knew in iphoto it looked purple in fotoflexer it looked dark green i knew its shape like ants when you sent me your picture you had a tiny edge of spots it was a perfect opportunity to see if i could get another program just to see those spots after fooling around with photo edit programs for months i knew lunapic was worth a try again i compared the lunapic edit with fotoflexer edit iphoto edit to make sure i was just focussing on those spots that s how i got to the lunapic method from using the first two methods just editing for what i wanted to see long process but i am still motivated every time i help someone they end up helping me more ok that s the short version smile hugs sari
