PPI California Civil Seismic Building Design, 12th Edition eText - 1 Year 2018-03-12 over a million copies sold clear writing is the key to clear thinking so think what you want to say then say it as simply as possible that's the thinking that underpins this much loved guide and the mantra for anyone wanting to communicate with the clarity style and precision for which the economist is renowned the economist style guide guides the reader through the pleasures and pitfalls of english usage it offers advice on the consistent use of punctuation abbreviations and capital letters identifies common errors and clichés and contains an exhaustive range of reference material covering everything from business ratios to mathematical symbols and common latin phrases it also tackles the key differences between british and american english but
this is no ordinary guide to english usage it has a wit verve and flair which make it much more than a simple work of reference here are some examples anticipate does not mean expect jack and jill expected to marry if they anticipated marriage only jill might find herself expectant take care with between to fall between two stools however painful is grammatically acceptable to fall between the cracks is to challenge the laws of physics critique is a noun if you want a verb try criticise use words with care if this door is alarmed does its hair stand on end the economist style guide is required reading for anyone who wants to communicate with style
