with its small spot of land from which the family drew it sustenance the landowner worked the land and
grew crops and raised livestock and poultry which he sold to neighbors and nearby townspeople mother
father and children were all involved with the task of providing for the family this was the original
spirit of america the spirit of freedom and independence somewhere along the way that spirit of freedom
and independence got lost in the shuffle the industrial revolution ushered in an age of dependence and
reliance on the act of working for someone else in order to feed one s own family later there came the
spirit of depending on the federal and state governments to act as a safety net to help families in dire
straits the citizens of the world must change their thinking and change it quickly at the time i started
writing this book in january 2014 the unemployment rate for the united states of america was hovering
around 7 i looked at this figure and thought there is something wrong here i realized that we as americans
and the citizens of the world have surrendered our freedom and independence in return for the dependence
on others for our own financial security childhood obesity has risen at an alarming rate of the last three
decades type 2 diabetes now threatens the health of generations to come our children spend more time at
the computer than they spend exercising nobody wants to work anymore nobody wants to exert him or herself
in performing any physical activity that is not to say that the entire population lives sedentary lives
there are millions of workers who perform jobs that are physically demanding there are those among us
whose jobs require them to clean the homes and offices of doctors and lawyers and many other professionals
why not take it a step further and start your own business of offering cleaning services to others there
is no shame in working in the cleaning industry any more so than there is in working in a factory the real
difference is that by owning your own cleaning business you can earn considerably more money than you
would by working for someone else this brings us to the heart of the matter you might be paid seven to ten
dollars an hour for cleaning someone else s home or business while working for someone else with you own
cleaning service business you can make upwards of fifty dollars an hour of course there are expenses
involved with running your own business you simply charge a price that allows for expenses and a tidy
profit to boot many are tired of living under the cloud of uncertainty wondering when the axe will fall

There is a difference between desire and decision. After a bad day at work, or when a particularly big bill you hadn’t expected arrives, every working person wants to have more money. Everyone wants to be his or her own boss. But really, that feeling is temporary, it’s a reaction to current circumstances and for whatever reason, it will fade fairly quickly. That is the first lesson to learn in starting your own business; not everyone was meant to have one. Sometimes, of course, that desire persists—it will become solid and strong, something that doesn’t fade in hours or days, and it’s that driven desire that can lead you to make a decision one that will change your life, and that’s why you’re holding this book in your hands or reading it on your screen. Because that fleeting dream just won’t go away, and you think you may really want to start a cleaning business of your own. This book will help you make an intelligent decision. Are you struggling to make ends meet? Are you getting tired of living paycheck to paycheck? Perhaps you are just looking for a change. Well, I say yes. It is time for a change. Updated in 2017. In this turnkey guide loaded with specifics, I share the three primary marketing strategies I used to generate a 2000 book of residual monthly income in the first month.

Start a Commercial Or Residential Cleaning Business

2008

this book is aimed at helping others learn how to start a small independently run commercial or residential cleaning business as the saying goes give a man a fish and you feed him for a day teach a man to fish and he feeds himself for a lifetime it is my hope that by writing this book i will teach someone how to think act and to work like an independent businessperson before there were factories and assembly lines and huge multinational corporations there was the family with its small spot of land from which the family drew it sustenance the landowner worked the land and grew crops and raised livestock and poultry which he sold to neighbors and nearby townspeople mother father and children were all involved with the task of providing for the family this was the original spirit of america the spirit of freedom and
independence somewhere along the way that spirit of freedom and independence got lost in the shuffle the
industrial revolution ushered in an age of dependence and reliance on the act of working for someone else
in order to feed one's own family later there came the spirit of depending on the federal and state
governments to act as a safety net to help families in dire straits the citizens of the world must change
their thinking and change it quickly at the time i started writing this book in january 2014 the
unemployment rate for the united states of america was hovering around 7 i looked at this figure and
thought there is something wrong here i realized that we as americans and the citizens of the world have
surrendered our freedom and independence in return for the dependence on others for our own financial
security childhood obesity has risen at an alarming rate of the last three decades type 2 diabetes now
threatens the health of generations to come our children spend more time at the computer than they spend
exercising nobody wants to work anymore nobody wants to exert him or herself in performing any physical
activity that is not to say that the entire population lives sedentary lives there are millions of workers
who perform jobs that are physically demanding there are those among us whose jobs require them to clean
the homes and offices of doctors and lawyers and many other professionals why not take it a step further
and start your own business of offering cleaning services to others there is no shame in working in the
cleaning industry any more so than there is in working in a factory the real difference is that by owning
your own cleaning business you can earn considerably more money than you would by working for someone else
this brings us to the heart of the matter you might be paid seven to ten dollars an hour for cleaning
someone else's home or business while working for someone else with you own cleaning service business you
can make upwards of fifty dollars an hour of course there are expenses involved with running your own
business you simply charge a price that allows for expenses and a tidy profit to boot many are tired of
living under the cloud of uncertainty wondering when the axe will fall and they get their lay off notice
there are those forward thinking persons who are thinking of starting a small business but don't know
where to find information and details on doing so th eaim here is to offer guidance to those who do want
to break away from the nine to five treadmill of living from paycheck to paycheck i started with the aim
of providing as much detailed information as i could about starting and running a cleaning service
business let's not kid ourselves here you will have to do further research to work out the details of
running your own business i have not gone into minute detail about operating your business this is more of
a broad overview aimed at inspiring you to look further and to dig deeper into the industry and learn as
much as you can
