the reason why I say this is because I am making available to
the English language syllabus writer the objectives he or she
has to include in each of the English language levels from
beginners to advanced as shown in the sections and parts of
this book introduced at the beginning of each level the
workbook is based on language analysis of each level of
language learning and derived from teaching and
experimenting on hundreds and hundreds of students of all
levels and all nationalities that I have taught throughout my
long teaching career and program development and
consulting experience. It is surely unique in the sense that the
objectives taught at each level of language learning are made
available to learners, teacher and syllabus designers the
workbook is not a grammar teaching book but a review tool
of the fundamental blocks of English taught in the basic levels
of English language learning. Each exercise has an answer key
table so the learner may compare the answers with the ones
provided in the table. Good luck, Christian. Get all you need to
