practical guidelines for implementing the six disciplines of breakthrough learning. The six disciplines of breakthrough learning have become a standard for companies serious about increasing the speed of innovation and development. The authors outline how learning professionals apply the concepts of their bestselling book with real world applications of each discipline. The book features case studies on how to apply the six disciplines in the workplace.

This book is for web developers interested in creating interactive visualizations. You will learn how to use d3.js to create graphs and data visualizations in the browser with HTML, SVG, and CSS. The book begins with an overview of SVG, the basis for creating two-dimensional graphics in the browser. It also includes case studies and examples to help you build interactive graphs that are viewable in any web browser using JavaScript.

The six disciplines are:

1. Know What You Need
2. Design for Success
3. Build the Right Team
4. Focus on Outcomes
5. Iterate and Learn
6. Create Cultural Change

This book is for those who are new to developing interactive visualizations and want to learn how to use d3.js to create graphs and data visualizations in the browser. It covers HTML, SVG, and CSS and includes case studies and examples to help you build interactive graphs that are viewable in any web browser using JavaScript.
