cognitive and visual perception this research book is about the transfer of training the main theme of this research is how the training participants perceived training and how they are practicing in their real workplace the qualitative method was implied where class observations and in depth interviews were conducted to explore the perceptions and practices of the training participants along with the coping strategies on the challenges they have faced the findings were that adequate time was not provided for the preparation though some planning was done the practice of the training in both the skills and knowledge was seen where practice of skill is more applied some of the knowledge and skills were not practiced assessment was done by using both the formative and summative evaluation tools finally this study concluded that there is the need of supervisors and guidance in practicing the skills and knowledge in their workplace spanish skills practice workbook focuses on skills practice language and literature studies linguistics grade n a universidad de oriente in santiago de cuba faculty of humanities course english language language english abstract the ability to teach foreign languages effectively has become an increasingly important skill to develop and improve the language proficiency of students teachers need to develop and apply proactive and positive attitudes to foster new levels of foreign language learning within their students teaching on its own is not a panacea for success this paper investigates how teachers at the universidad de oriente in santiago de cuba search for and apply innovative ways of teaching foreign languages to their students within current boundaries the results from this research show that there is a positive relationship between the level of proficiency in a foreign language and the methods and approaches teachers apply to keep students motivated and interested in the subject matter the literature review from this study provided supportive evidence which was strengthened with insights from face to face interviews and a focus group meeting the outcomes confirmed that students who are exposed regularly to practical and diverse teaching methods are more likely to exceed the expected foreign language proficiency levels set by the university s quality standards aimed at teachers and professionals working with athletes this text introduces sport science topics to coaches as well as how these concepts can be applied to enhance sports performance child welfare is the oldest specialization within social work practice
