in this signal work of history bancroft prize winner and pulitzer prize finalist lizabeth cohen shows how the pursuit of prosperity after world war ii fueled our pervasive consumer mentality and transformed american life trumpeted as a means to promote the general welfare mass consumption quickly outgrew its economic objectives and became synonymous with patriotism social equality and the american dream
Material goods came to embody the promise of America and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change. Yet despite undeniable successes and unprecedented affluence, mass consumption also fostered economic inequality and the fracturing of society along gender, class, and racial lines. In charting the complex legacy of our Consumers Republic, Elizabeth Cohen has written a bold, encompassing, and profoundly influential book.

For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of dead white men. As a result, more emphasis is placed on Harriet Tubman than on George Washington, more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima, and more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases in this groundbreaking book. America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

Everything you've been taught about the World War II internment camps in America is wrong. They were not created primarily because of racism or wartime hysteria. They did not target only those of Japanese descent. They were not Nazi-style death camps. In her latest investigative tour de force, New York Times best-selling author Michelle Malkin sets the historical record straight and debunks radical ethnic alarmists who distort history to undermine common sense national security profiling. The need for this myth-shattering book is vital. President Bush's opponents have attacked every homeland defense policy as tantamount to the racist and unjustified World War II internment. Bush's own Transportation Secretary Norman Mineta continues to milk his childhood experience at a relocation camp as an excuse to ban profiling at airports. Misguided guilt about the past continues to hamper our ability to prevent future terrorist attacks. In Defense of Internment shows that the detention of enemy aliens and the mass evacuation and relocation of ethnic Japanese from the West Coast were not the result of irrational hatred or conspiratorial bigotry. This document-packed book highlights the vast amount of intelligence, including top secret magic messages which revealed the Japanese espionage threat on the West Coast. Malkin also tells the truth about who resided in enemy alien internment camps. Nearly half were of European ancestry. What the West Coast relocation centers were really like. Tens of thousands of ethnic Japanese were allowed to leave. Hundreds voluntarily chose to move in. Why the $1.65 billion federal reparations law for Japanese internees and evacuees was a bipartisan disaster. How both Japanese American and Arab Muslim American leaders have united to undermine America's safety. With trademark fearlessness, Malkin adds desperately needed perspective to the ongoing debate about the balance between civil
liberties and national security in defense of internment will outrage enlighten and radically change the way you view the past and the present

Over the past fifteen years northeast asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy still the region cannot escape from the burden of history this book examines the formation of historical memory in four
northeast asian societies china japan south korea and taiwan and the united states focusing on the period from the beginning of the sino
japanese war in 1931 until the formal conclusion of the pacific war with the san francisco peace treaty of 1951 the contributors analyse the
recent efforts of korean japanese and chinese scholars to write a common history of northeast asia and question the underlying motivations
for their efforts and subsequent achievements in doing so they contend that the greatest obstacle to reconciliation in northeast asia lies in
the existence of divided and often conflicting historical memories the book argues that a more fruitful approach lies in understanding how
historical memory has evolved in each country and been incorporated into respective master narratives through uncovering the existence of
different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an
introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in
the region this book will be essential reading for students and scholars of asian history asian education and international relations in east asia
