**Census of Population, 1950**

1952 between 1902 and 1934, the United States confined hundreds of adults and children from dozens of native nations at the Canton Asylum for Insane Indians. A federal psychiatric hospital in South Dakota, but detention at the Indian asylum as families experienced it, was not the beginning or end of the story. For them, Canton Asylum was one of many places of imposed removal and confinement including reservations, boarding schools, orphanages, and prison hospitals. Despite the long reach of institutionalization, there was tenacity of relationships extended within and beyond institutional walls.

This accessible and innovative work, Susan Burch, tells the story of the Indigenous people, families, communities, and nations across generations to the present day who have experienced the impact of this history.

2007-12-01 It is not often recognized that China was one of the few places in the early modern world where all merchants had equal access to the market. This study shows that private traders, regardless of the volume of their trade, were granted the same privileges in Canton as the large East India companies. All of these companies relied to some extent on private capital to finance their operations. Without the investments from individuals, the trade with China would have been greatly hindered. Competitors large and small traded alongside each other while enemies traded alongside enemies. Buddhists, Muslims, Catholics, Protestants, Parsees, Armenians, Hindus, and others lived and...

Food Culture in Germany 2008-06-30 despite the current recession the frequency of second home
ownership is still surprisingly high throughout the western world while the uk and ireland
previously had lower occurrences of multiple dwellings compared to the rest of europe they are
quickly catching up with a current surge in the ownership of second homes the recent mp expenses
scandal in the uk has also drawn attention to the prevalence of second homes or more within the
middle classes and the fact that the concept is becoming increasingly popular chris paris uses
this text to address the reasons behind why second homes are becoming more popular both within
the usual domicile of the individuals and in international locations the socioeconomic factors
and historical contexts of homes in cultures across the world are fundamental to explaining the
choices in transnational home ownership and paris case studies and comparisons between additional
homes in europe australia america and asia expand upon the motivation for people to own a second
home affluence mobility and second home ownership draws together debates on gentrification
globalisation consumerism environmental factors and investment to provide a balanced look at the
pros and cons of second home ownership and what implications it has for the future an ideal text
for students studying geography urbanism and planning this book is also of interest to
individuals interested in the changing ways in which we make choices on our places of residence

Committed: 1915. Developing regions are set to account for the vast majority of future urban growth and women and girls will become the majority inhabitants of these locations in the global south. This is one of the first books to detail the challenges facing poorer segments of the female population who commonly reside in slums. It explores the variegated disadvantages of urban poverty and slum dwelling from a gender perspective. This book revolves around conceptualisation of the gender urban slum interface which explains key elements to understanding women’s experiences in slum environments. It has a specific focus on the ways in which gender inequalities are can be entrenched but also alleviated. Included is a review of the demographic factors which are.
increasingly making cities everywhere feminised spaces such as increased rural urban migration among women demographic ageing and rising proportions of female headed households in urban areas discussions focus in particular on education paid and unpaid work access to land property and urban services violence intra urban mobility and political participation and representation this book will be of use to researchers and professionals concerned with gender and development urbanisation and rural urban migration
