**American Education** 2018-07-16 This book provides a state of the art overview of the changes and development of the civil international aircraft aviation industry. It offers a fully up to date account of the international developments and structure in the aircraft and aviation industries from a number of perspectives which include economic, geographical, political and technological points of view. The aircraft industry is characterized by very complex high technology products produced in relatively small quantities. The high technology requirements necessitate a high level of R&D in no other industry is it more of inter dependence and cross fertilisation of advanced technology. Consequently, most of the world's large aircraft companies and technology leaders have been located in Europe and North America. During the last few decades, many developing countries have tried to build up an internationally competitive aircraft industry. The authors study a number of important issues including the political economy of the aircraft industry globalization in this industry innovation, newly industrializing economies and the aircraft industry. This book also explores regional and large aircraft transformation of the aviation industry in central and eastern Europe including engines, airlines, airports and airline safety. It will be of great value to students and to researchers seeking information on the aircraft industry and its development in different regions.

Unfinished Business 2014 a permanent political class has emerged on a scale unprecedented in our nation's history its self dealing nepotism and corruption contribute to rising inequality its reach extends from the governing elite throughout nongovernmental institutions aside from constituting an oligarchy of prestige and power it enables the creation of an aristocracy of massive inherited
wealth that is accumulating immense political power in a muckraking tour de force reminiscent of lincoln steffens upton sinclair and c wright mills american oligarchy demonstrates the way the corrupt culture of the permanent political class extends down to the state and local level ron formisano breaks down the ways this class creates economic inequality and how its own endemic corruption infects our entire society formisano delves into the work of not just politicians but lobbyists consultants appointed bureaucrats pollsters celebrity journalists behind the scenes billionaires and others their shameless pursuit of wealth and self aggrandizement often at taxpayer expense rewards channeling the flow of income and wealth to elites that inequality in turn has choked off social mobility and made a joke of meritocracy as formisano shows these forces respond to the oligarchy s power and compete to bask in the presence of the 01 percent they also exacerbate the dangerous instability of an american democracy divided between extreme wealth and extreme poverty
