This style guide is a product of the voting system standards and test methods research at NIST. The most recent version of the tech standard, the voluntary voting system guidelines of Aug 2007, contains requirements for the usability of documentation used by poll workers and election support staff. The approach to testing these requirements has two components: 1) style guide incorporating best practices for voting system documentation, 2) test protocol for voting system test labs to use to measure the usability of instructions supplied by voting system manufacturers for election workers. This style guide sets out guidelines for voting system manufacturers to use to implement best practices in their documentation for poll workers and election support staff.
