existence does existence cease to exist reality is hard to pin down to one
definition existence is being existence is being aware existence does not cease to
exist and it all depends on reality your reality the very word existence should
describe the only real thing that exists in the universe and beyond consciousness
consciousness alone and nothing else everything is conscious even if you do not see
it the earth rotates movement indicates that the earth is doing exactly what was
intended for it to do what makes it rotate the sun shines brightly always the moon
shines brightly too in the night it is like clockwork it just happens it is
programmed to happen like that it is consciousness at work some call it nature the
forces of nature they would chime in but nature is following a script a prewritten
software nature cannot change this script nothing can change this script of a
software for our earth planetary system and indeed the universe because the program
is set from the beginning if you can understand that well you are welcome to a world
created for the enjoyment of consciousness if you think about it the universe seems
to have been synchronized by an intelligence science is yet able to put a finger on
perhaps thomas h huxley a biologist and humanist said it best below it seems to me
that there is a third thing in the universe to wit consciousness which i cannot see to be matter or force or any conceivable modification of either ellicott s commentary on the whole bible is a practical and ideal commentary for sunday school teachers christian workers bible students libraries and ministers each of the durably bound volumes in this handsome set is designed with an eye to the convenience of the user the large double column pages are distinctive and easy to read the helpful running commentary is always on the same page with the actual bible text making it simple for the user to locate the information he or she seeks the comments in every case are crisply written and wonderfully practical and up to date you the user will not have to read pages of extraneous material to get the important information if you ever need help for sunday sermons prayer meeting talks messages for young people s groups etc sunday school lessons personal bible study messages for special occasions you will find it in ellicott s commentary on the whole bible the nkjv bible study bible provides a study guide for every chapter of the bible use this bible to encourage discussion in a small group study or for further engagement in your personal devotions to gain a deeper understanding of any chapter in the bible additional materials provide directions for leading a group through studies on specific topics such as the names of god prayer salvation and suffering features include double column typesetting with guides set in boxes after each chapter study guides for each of the 1 189 chapters of the bible suited for both small groups and individual study topical study guides ranging from 4 to 13 weeks on key subjects concordance full color maps clear and readable 9 5 point nkjv comfort print your everyday guide to discerning and destroying the works of the devil few christians are aware of just how many day to day struggles are actually the work of demonic

Strong's Bible Concordance 2018-03-01

the old testament is a formidable book a historic journey moving from creation through the time of noah and the flood to abraham and his descendants moses and the
children of israel high priests judges kings and the spoken words of god through the
prophets in my studies of the books of the old testament i find that godaeur tm s
purpose and revelations are obscured with pages and pages of detail that makes for
cumbersome reading and a somewhat distant grasp of its inspirations i wrote this
book to summarize the main points from genesis to malachi and to provide the
historical elements such as dates to tie the story to historical settings and events
i have also pointed out along the way the presence of christ and the holy spirit in
these old testament writings most of the books of the old testament are prophetic
there were approximately eight hundred prophesies in the old testament and a large
portion approximately six hundred have been fulfilled there is not a single biblical
prophecy that pertains to a time that has now passed that is not fulfilled my goal
is for this writing to serve as an easy and comfortable format for the reader to get
to know god who we are to him why we are here and to discover his wonderful pathway
leading to eternal life i want to reach those who are led to the word of god and
upon opening up a bible and reading a few pages become discouraged by its vastness
and disconnect of such long ago times the old testament truly has a long but
remarkable timeline of history and i have endeavored to tie its writings accordingly
in a brief walk through these inspired books of the word of god

Work Matters 1790

what is reality what is existence does existence cease to exist reality is hard to pin down to one definition existence is being existence is being aware existence does not cease to exist and it all depends on reality your reality the very word existence should describe the only real thing that exists in the universe and beyond consciousness consciousness alone and nothing else everything is conscious even if you do not see it the earth rotates movement indicates that the earth is doing exactly what was intended for it to do what makes it rotate the sun shines brightly always the moon shines brightly too in the night it is like clockwork it just happens it is programmed to happen like that it is consciousness at work some call it nature the forces of nature they would chime in but nature is following a script a prewritten software nature cannot change this script nothing can change this
script of a software for our earth planetary system and indeed the universe because
the program is set from the beginning if you can understand that well you are
welcome to a world created for the enjoyment of consciousness if you think about it
the universe seems to have been synchronized by an intelligence science is yet able
to put a finger on perhaps thomas h huxley a biologist and humanist said it best
below it seems to me that there is a third thing in the universe to wit
consciousness which i cannot see to be matter or force or any conceivable
modification of either
