it's a powerful combination of the world's best literature and superior reading and skills instruction. Prentice Hall literature timeless voices, timeless themes helps students grasp the power and beauty that lies within the written word. While the program's research-based reading approach ensures that no child is left behind in the late 1930s, mathematical genius Beau Kitselman and the surrealist artist Salvador de Regil were running Persons Inc., a unique consultancy in Hollywood where they worked to develop the creativity of many of the actors and actresses of the time and solve their emotional problems. This period was known as the golden age of Hollywood and spawned many of the screen goddesses and femme fatales whose names still survive today, such as Jean Harlow, Barbara Stanwyck, Mae West and Dorothy Lamour. Hollywood was notorious at that time for its debauched way of life, its use of sex to sell movies and the exploitation of women to that end, all of which put it under the microscope of the world and in particular the newly appointed film censors. It is in this era that the fuse is set. Kitselman's main character Jedediah Strong simultaneously seduces and then convinces three young women to accompany him to the Nevada desert, where in the company of seasoned actresses and charismatic men living outside of society, he teaches them about love and sex whilst opening their eyes to their essential selves. Woven into this tale are ideas of a utopian society of breaking away from the norms of society, unique scientific advances such as anti-gravity and the concept of living in fire. Experienced as excitement, adventure, passion which strong seeks to ignite in these three young women if they have dynamite in them. He certainly has the fuse. An open access edition of this book will be made available on publication via the Liverpool University Press website. Steel City Readers makes available and interprets in detail a large body of new evidence about past cultures and communities of reading. Its distinctive method is to listen to readers' own voices rather than theorising about them as an undifferentiated group. Its cogent and engaging structure traces reading journeys from childhood into education and adulthood and attends to settings from home to school to library. It has a distinctive focus on reading for pleasure and its framework of argument situates that type of reading in relation to dimensions of gender and class. It is grounded in place and particularly in the context of a specific industrial city, Sheffield. The men and women featured in the book coming to adulthood in the 1930s and 1940s rarely regarded reading as a means of self-improvement. It was more usually a compulsive and intensely pleasurable private activity. A young mother is left abandoned yet finds strength in the busy streets and communities of Liverpool. Joan Jonker's heart-warming saga when wishes come true is guaranteed to bring tears of sadness and joy to readers everywhere. Perfect for fans of Katie Flynn and Cathy Sharp. Evelyn Wilkinson married Charles Lister Sinclair just hours before he left for war, unaware that she would never see him again and that she was already carrying his child. When Amelia is born, Charles's parents refuse to accept that she is their grandchild so penniless and afraid, Evelyn moves to the backstreets of Liverpool where she dreams of escaping. Meanwhile, as little Milly grows up, she discovers that a world of happiness lies on her doorstep. What readers are saying about When wishes come true: "What a great book to read! I couldn't read it fast enough as I was gripped from the very first page. I've read lots of Joan Jonker's books, and this one surpasses them all. Full of love, sorrow, comedy, and emotions, this volume represents a unique addition to the growing body of empirical literature on materials development. Adopting a reverse approach to the topic rather than applying theory to practice, practitioners and..."
Researchers from 11 countries reappraise applied linguistics theories through practice. The book also provides evidence for the diversity of materials development around the globe at different levels for different specialities and for different purposes. Each chapter surveys the relevant literature such as task-based learning and language and culture. Describes a specific research project reports the results of the project and discusses the implications of these results for the development of materials both in the local context and in general. After each section, there are editorial comments highlighting the issues emerging from the research and there is a conclusion which connects the findings of the various chapters and makes suggestions both for future research and for the principled development of materials for L2 learners. The book will be suitable for teachers, materials developers, academics, and students in postgraduate courses in applied linguistics in TESOL and in the teaching of other languages. As an L2 it's a powerful combination of the world's best literature and superior reading and skills instruction. Prentice Hall literature: Timeless Voices, Timeless Themes helps students grasp the power and beauty that lies within the written word. While the program's research-based reading approach ensures that no child is left behind. Joan Aiken's invention seemed inexhaustible, her high spirits, a blessing, her sheer storytelling zest, a phenomenon. Phillip Pullman: The gift giving is the perfect selection of stories to introduce readers to this precious and incredible author. Kiran Milwood Hargrave: The Voice that tells these stories is braver than us. Unflappable, someone who knows the ways of the world and loves it anyway. She is one of the writers I admire most in the world. Katherine Rundell: Favourite stories like unexpected presents are things that you can keep and cherish all your life carry with you in memory. In your mind's ear and bring out at any time when you are feeling lonely or need cheering up or like friends just because you are fond of them. Joan Aiken is justly famous for her Wolves of Willoughby Chase series but her greatest love was for short stories which she wrote prolifically throughout her long career. From a princess turned into a pirate parrot to a procession of Father Christmases chased down Fifth Avenue by a rackety horse and cart from the ghost of a Crusader's dog to a captured mermaid in a flying machine. There is something for everybody in this enthralling collection. These stories showcase Aiken's unique talents: the way she mixed magic and myth with humour to create a kind of modern fairytale. Her stories will appeal to readers of all ages for many years to come. With beautiful illustrations by Peter Bailey. When Katelyn visited her grandmother's house, she often did she always loved seeing a brass bottle that was kept on top of a very tall bookcase in her grandmother's living room. Katelyn first thought it was just a brass bottle. Once she asked her grandmother why it was always so shiny, her grandmother told her that maybe it was magic. Katelyn just had to see the brass bottle up close so she persuaded her best friend Skyla to help her. Was there something magic about this bottle? Would Katelyn's life change dramatically because of it? Katelyn and Skyla also found something shocking in her grandmother's attic. What was it? I know you'll love reading the exciting things that happen in this book. This final collection of Joan Aiken's stories taken from nearly sixty years of her writing career is rooted in the classic fables and fairy tales familiar to us all but which she has brought up to date by adding her own voice and a touch of that mysterious added ingredient that makes you return to them again and again at any age. They range from fantastic fairy tales to science fiction from a future where the sun no longer shines thanks to human folly to one where all the best words are kept locked away in a forbidden forest. They take us to lands that could be from our own past where we can call upon magical friends like the mysterious Miss Samphire or long lost magic spells to save a castle from viking attack. These are absolutely timeless tales for as she said they come from nowhere and they are aimed at nobody's ear or rather they are aimed at the ear of anybody who happens to pass by just at that
