Characterization of Side-slip Dynamics in Land Rover LR3 for Improved High Speed Autonomous Control

2008

In this thesis the side slip control dynamics of the Land Rover LR3 platform are examined for autonomous control as autonomy becomes implemented in high speed safety applications. The importance of an accurate model for the vehicle becomes crucial for obstacle avoidance and emergency maneuvers. Testing on public highways under normal operation shows a slip ratio drop to 70% of the no-slip model indicating a need for model improvement by defining the slip ratio as a function of velocity with a slope of 0.018 ± 0.002 seconds per meter and a y-intercept of 1.23 ± 0.04. Much of this error may be reduced while a more complex relationship may exist between the slip ratio, vehicle velocity, and the steering command. The noise and inaccuracy of the sensor prevent a more precise analysis.

Land Rover Discovery

2014-04-30

A quarter of a century ago the Land Rover Discovery defined at a stroke how traditional 4x4 all-terrain ability could co-exist with family estate practicality at an affordable price. Since 1989, the Discovery has gone through several iterations but its essential qualities have remained unchanged: practical, capable, and above all, completely distinctive. The stepped roof seemed odd at first but now defines the Discovery shape. The Discovery has gone on to become one of Land Rover's best-loved products. Land Rover Discovery: 25 Years of the Family 4x4 looks in detail at the four generations of Discovery including full specification details and production histories. Topics covered include the design and development of the original Discovery in the late 1980s and the move into North America, the new 300TDI engine and R380 gearbox of 1994, and the BMW takeover series II models of 1998-2004 and Land Rover's move from BMW to Ford. Discovery 3 LR3 2004-2009 and the new TDV6 engine developed by Jaguar Discovery 4 LR4 the all-purpose family luxury car special editions and derivatives of all four generations of Discovery including Discoverys for the emergency services and the Camel Trophy and G4 Challenge competition vehicles. Superbly illustrated with 351 colour photographs.
